## Fix-It Fics

Challenging the Status Quo through Fan Fiction

Kaitlin Tonti (Ed.)

Over the past decade, fan fiction has evolved into a respected form of self-expression and literary engagement. This volume explores the fix-it fic subgenre, where fans rewrite problematic plots or biases in original works to reflect justice, healing, and inclusivity. Featuring fandoms like Harry Potter, Supernatural, Stranger Things, and more, the essays examine how fix-it fics challenge norms, advocate for marginalized identities, and build communities. Ideal for scholars of pop culture, gender, queer studies, and anyone teaching fan studies or transformative works.

Alexei Anisin, *Anglo-American University*

This book introduces a new framework for understanding how state repression shapes civil resistance and political violence. Drawing on event-based data from 171 protest massacres (1819–2022), it analyzes why repression leads to isolated events or escalates into genocide or civil war. Using mixed methods, it reveals varied outcomes across time and place, offering new insights into civil resistance and policies to help prevent human rights violations.

## Quality commitment

Thanks to our growing community of reviewers, all our books are peer reviewed. Committed to producing high-quality titles, we employ tried-and-tested quality control processes in all stages of production. Our editorial checks ensure that all books adhere to high standards of consistency, readability and coherence. We adopt a pragmatic approach to turning around a manuscript quickly and intervene only when necessary.

## Editorial values and standards

A work's contribution to knowledge, irrespective of approach or perspective, is the central criterion of our acquisition process. Importantly, our acquisitions are driven by their research impact and current academic trends rather than saleability. Peer review, in-house editorial expertise and collaboration with advisory editors ensure our titles are relevant and of a high academic standard. Our commitment to scholarship has been recognized with inclusion in the lists of academic publishers maintained by the Spanish National Research Council, the Finnish Publication Forum and the Norwegian Centre for Research Data.

## Individual attention

We care for and pay attention to the needs of each of our authors. We are responsive to author queries and strive to keep you up to date with your manuscript's progress towards publication. We only enlist qualified and sufficiently motivated experts to review your work and guide them to offer constructive criticism. This ensures that peer reviews are thorough, constructive and respectful of your effort as an author.

## Maximum exposure

We work closely with our industry and academic community partners to understand current trends and market our titles appropriately. Besides traditional book marketing, we make extensive use of digital marketing tools and are able to work with authors on promotional activities.
