# THE RISE OF AWARDS IN ARCHITECTURE

VERNON PRESS  
SERIES IN BUILT ENVIRONMENT

## The Rise of Awards in Architecture

Jean-Pierre Chupin (Ed.), *Université de Montréal et al.*

This is the first ever scientific study that focuses on awards in architecture and the built environment, investigating their exponential growth since the 1980s. It is necessary to take a critical distance to question what awards are meant to embody, symbolize, and perhaps measure, as they can be vehicles that propel architecture forward but can also be Trojan horses in an era of constant event-driven products, small and big news, and brand imaging.

## The Hamilton Phenomenon

Chloe Northrop (Ed.), *Tarrant County College*

The use of rap, hip-hop, jazz, and Broadway show tunes in Lin-Manuel Miranda's Broadway sensation provides the basis for a whirlwind showcase of America's past through a reinterpretation of eighteenth-century history. Bound together by their shared interest in 'Hamilton: An American Musical', the authors in this volume diverge from a common touchstone to uncover the unique moment presented by this phenomenon.

## Quality commitment

Thanks to our growing community of reviewers all our books are peer reviewed. Committed to producing high-quality titles, we employ tried-and-tested quality control processes in all stages of production. Our editorial checks ensure that all books adhere to high standards of consistency, readability and coherence. We adopt a pragmatic approach to turning around a manuscript quickly and intervene only when necessary.

## Editorial values and standards

A work's contribution to knowledge, irrespective of approach or perspective, is the central criterion of our acquisition process. Importantly, our acquisitions are driven by their research impact and current academic trends rather than saleability. Peer review, in-house editorial expertise and collaboration with advisory editors ensure our titles are relevant and of a high academic standard. Our commitment to scholarship has been recognized with inclusion in the lists of academic publishers maintained by the Spanish National Research Council, the Finnish Publication Forum and the Norwegian Centre for Research Data.

## Individual attention

We care for and pay attention to the needs of each of our authors. We are responsive to author queries and strive to keep you up to date with your manuscript's progress towards publication. We only enlist qualified and sufficiently motivated experts to review your work and guide them to offer constructive criticism. This ensures that peer reviews are thorough, constructive and respectful of your effort as an author.

## Maximum exposure

We work closely with our industry and academic community partners to understand current trends and market our titles appropriately. Besides traditional book marketing, we make extensive use of digital marketing tools and are able to work with authors on promotional activities. All our books are also published as e-books and paperbacks. As reported in WorldCat, our books are held by academic libraries worldwide. Our books are also available through a wide range of specialized resellers, e-book aggregators, select academic bookshops and online retailers such as Amazon and Barnes and Noble.

## No cost burden & flexibility about sharing

It's simple: we never charge authors for publishing - no hidden fees, no surprises. Our no-charge promise reflects our confidence in commissioning only high-quality works, the quality of our production and the efficiency of our workflow. Authors of monographs are offered complimentary copies of their book and all authors can purchase additional copies at a 40% discount.
